Advocacy leaflet

// Advocacy is about helping and supporting you to get your views across. It is also about helping you to have a say in decisions that affect your life. //

An advocate is a person who can make sure that your wishes and feelings are heard.

This can be done by:

- > supporting you at your review
- > meeting you and listening to your problems
- > helping you to make a complaint if you're not happy about something
- > giving you information and advice about your rights

You have the legal right to an advocate!

If you would like to talk to an advocate then please contact us or ask someone else to do it for you.

We offer a drop in service for young people. Feel free to call in if you need advice, information or support.

We also have a young people's meeting room that you can use for:

- > Review meetings
- > Computer and internet access
- > Contact visits
- > Editing a video diary
